

SYMPATHY FOR MRS. MAYBRICK.

Ladies High in Official and Social Circles in This Country Interested in Her.

Boston, Mass., Sept. 23.—A Bar Harbor special says that the case of Mrs. Maybrick, accused of poisoning her husband in England, and sentenced to penal servitude for life, was some time since brought to the attention of Mrs. Blaine, and she, together with Secretary Blaine, has become deeply interested in it. Mrs. Blaine has been for many months constantly in receipt of letters urging her to use her influence with the Secretary of State and induce him to commute with Lord Salisbury in the maintenance of Mrs. Blaine and is doing all in her power to do, while Secretary Blaine has given much time and thought to the case. About two weeks ago a petition for Mrs. Maybrick's pardon signed by Mrs. Harrison and the wives of the members of the Cabinet was sent to Minister Lincoln for presentation to the Queen.

Early this morning Lewis effected an entrance to the room in which they were sleeping and began shooting, with the effect noted. Lewis is said to have served in the penitentiary for killing a woman in Louisville.

THREE SERIOUS ACCIDENTS.

Benwood Furnishes a Batch of Interesting News.

John Hubbard, a young man who accepted the position of attending to the river pumps at the Wheeling steel works; met with two very painful accidents Tuesday night while attending his work. He had his left hand caught in the machinery, one finger being cut off and two others badly mashed. He had his hand crossed by Dr. Haskins and continued his work. Shortly after midnight he went down stairs to look after some levers, and rendered nervous by the pain of his bruised hand, allowed his right arm to be caught between two levers and crushed from the elbow to the wrist. It was a shapeless and pulpy mass, and amputation is imperative. Another serious accident occurred yesterday afternoon. John Swineberger, a carpenter, employed on the structure of the Catholic church, fell from the top of the wall, a distance of forty feet. His leg was fractured at the thigh and ankle. It is also feared that he received some internal injuries. He was carried across the street to a boarding house kept by Mrs. Diebold and medical assistance at once procured. The doctors are extremely doubtful of his recovery, as this is the second accident of the kind he has met with. About two years ago he fell from the tube works and received injuries of a serious nature, but luckily recovered.

The B. & O. Railroad has turned all the switches lying in the vicinity of the Wheeling Steel Works into the hands of that company, which now has quite a large force of men at work repairing the road for use. The B. & O. Company is also putting in a new stone wall at the entrance to McMillan Bros' Coal Works. This has long been needed, as the wall was very unsafe.

Complaint was yesterday made against Louis Warner for wife beating. He is an extremely worthless fellow, working but little and spending the little he earns for intoxicants, falling utterly to provide for his family.

FOUR WAYS TO CURE A COLD.

Any one of the four following ways is good. Use the one that seems most agreeable and convenient.

I. Bathe the feet in warm water, take a wineglassful of some pure stimulant (whiskey preferably) in hot water and remain in a warm room.

II. Bathe the face in very hot water frequently for an hour, take a little pure whiskey in hot water and go to bed. It is well to remember that the whiskey must be pure.

III. After having taken a wineglassful of pure whiskey in hot water, sniff hot salt water up the nostrils a few times. Repeat every three hours.

IV. Take some active exercise in the open air, and on entering the house take some pure medicinal whiskey and then keep warm.

A Dream of Happiness

May be followed by a morning of "La Grippe." Easily, and why? Because the displacement of covering in bed, a neglected draught from a partly closed window, an open transom connected with a windy entry in a hotel, may convey to your nostrils and lungs the death-dealing blast. Terrible and swift are the threats made by this new destroyer. The medicated alcoholic principle in Hostetter's Stomach Bitters will check the dire complaint. A persistency in this preventive of its further development will absolutely checkmate the dangerous malady. Unmoderated alcoholic stimulants are of little or no value. The just medium is the Bitters. Not less efficacious is it in cases of malaria, biliousness, constipation, rheumatism, dyspepsia and kidney trouble. The weak are usually those upon whom disease fastens first. Invigorate with the Bitters.
